Memo to File:

Re: Chinook Construction, Ltd.  
ACT/015/016  
Seed Mixture and Planting Schedule

This is a recommended seed mixture and application rate for reclamation of the disturbed surface area for the above mining operation.

Shadscale	@	2 lbs/acre
Fourwing Saltbush	@	2 lbs/acre
Indian Ricegrass	@	2 lbs/acre
Galleta Grass	@	1 lb./acre
Sand Dropseed	@	1 lb./acre

These species should be planted in all disturbed areas by broadcasting the seed then dragging the surface. This should be done as soon as possible.

JAMES W. SMITH, JR.  
RECLAMATION SOILS SPECIALIST
